

FROM THE DESK OF GARY BOSHART PRESIDENT

The summer season has arrived! Not only is it a busy time for the Industry, it is also a busy time for individuals as they take their summer vacations - whether it is relaxing at home or traveling a distance. Wherever your plans take you this summer, I hope you have a safe and enjoyable time with family and friends.

Boshart Industries is pleased to add Easy-Grip Push Fit Fittings to our extensive line of products. There is a complete listing of the part numbers and descriptions on page 2 of this Boshart Bulletin.

Many of you have had contact with Ann Smith in the past 11 years, either when she was part of the Inside Sales Team or as my Executive Assistant. Ann retired May 28th and she and Don have plans that include spending time with family and friends, making crafts, traveling, etc. I want to thank Ann for her immense contribution to Boshart's. It was greatly appreciated and she will be missed by reps, customers and co-workers.

GETTING TO KNOW.....

Arnie Gaunt, CMA, Controller

I was given a tour of the operations by Mel Boshart during an open house over 12 years ago and I remember being so impressed that I asked him if the company needed someone to look after the accounting and finance functions. He encouraged me to talk to Gary and the rest is history.

I live in Milverton with my wife of 25 years (Sue) and our 2 children (Justin 19 and Nathan 17). I enjoy spending time with my family, touring around on my motorcycle, and I am thankful to enjoy the work that I do.

I have a good group of people to work with and look forward to many more years with Boshart's!

NEW PRODUCTS NOW AVAILABLE: EASY-GRIP PUSH FIT FITTINGS

Boshart EASY-GRIP Push Fit Fittings and valves are available in sizes from 3/8" to 1" designed for connecting fittings and valves to Copper, CPVC and PEX Pipe and are ideal for use on plumbing, water heaters and hydronic heating systems. Due to their unique design utilizing high quality EPDM O-ring and #304 Stainless Steel gripper ring no soldering, crimping, or solvent welding is necessary.

SIMPLY PUSH, CONNECT AND GO!

APPLICATIONS:

- Potable Water and Hydronic heating systems - approved for use for both underground and behind walls with/without access panels.
- New residential and commercial construction - a fast easy way to plumb jobs.
- Excellent for wet, hazardous and dry repairs of existing plumbing - Excellent for wet repairs where a system is hard to drain making soldering difficult with no drying time required, a safe method to repair piping in hard to access situations where open flame could be a fire hazard for soldering.

FEATURES:

- Connects Copper, CPVC and PEX pipe in any combination.
- Full fluid flow (without stiffener inserts)
- Fast installation, fittings can be rotated after assembly for easier installation in tight spaces - No tools required.
- No soldering, flux, clamps, unions or glue.
- High quality materials including Stainless Steel Gripper ring and EPDM O-ring.
- Applications from 3/8" to 1" Copper, CPVC, and PEX Tubing sizes.
- Integral tube liner for PEX installations.
- Easy to disconnect if needed. Disconnection of a joint can only be accomplished by using a special disconnect tool (plastic disassembly clip) to release the tube.

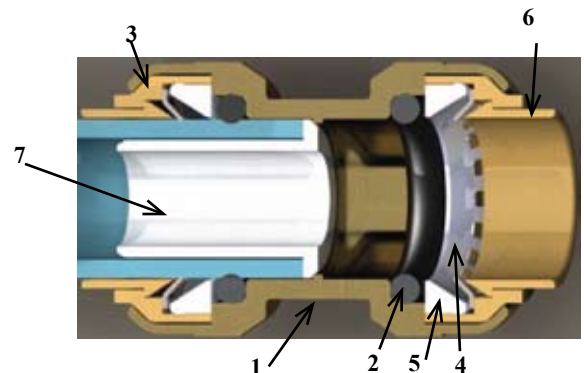

EASY-GRIP PUSH FIT FITTINGS FOR TUBE SIZES

Nominal Diameter	OD Inches	ID Inches
3/8"	0.5	0.35
1/2"	0.625	0.475
3/4"	0.875	0.671
1"	1.125	0.885

CONSTRUCTION/RATINGS

- Max Pressure 200 psi (1378 kPa)
- Max Temp 200°F (93°C) - Water

Part	Material
1 Body	C36500 Brass (Cu=60%, Pb=0.6%, Zn=39.4%)
2 O-Ring	EPDM (Ethylene Propylene Diene Monomer)
3 Locking Ring	POM (Polyoxymethylene)
4 Gripper Ring	S.S. 304 (Stainless Steel #304)
5 Seat Ring	POM (Polyoxymethylene)
6 Push Ring	POM (Polyoxymethylene)
7 Stiffener	PSU (Polysulfone)

PRODUCT UPDATE

Gray Magic Industrial Grade Pipe Thread Compound is a slow drying, soft settling, non-hardening pipe thread compound. Recommended for on-site or assembly line work. For Sealing Threads On **ALL** types of metal, ideal for stainless steel threads which are more difficult to seal, also for sealing plastics including ABS, PVC, CPVC, Poly and Nylon Plastic Pipe Fittings.

Standard 61 & 14

This compound is made with the highest quality materials, and is excellent for Potable Water Applications.

NSF 61 tests for Drinking Water System Components - Health Effects and NSF 14 tests end use applications that include potable water.

Part No.	Size	Qty Case
TS-GM08	1/2 Pint 8 Fl. Oz. 237 ml	24
TS-GM16	1 Pint 16 Fl. Oz. 473 ml	12
TS-GM32	1 Quart 32 Fl. Oz. 0.95 Liters	12

Recommended for:

Acids, Diluted	Fatty Acids	Mineral Oils
Air, Compressed	Freons (All)	Natural Gas
Alkalis, Diluted	Gasohol	Naphtha
Ammonia	Gasoline	Nitrogen Gas
Aliphatic Solvents	Glycol	Propane
Brine	Heating Oils	Refrigeration Gases
Butane	Helium, Gaseous	Soap, Liquid
Corrosives	Hydraulic Oils	Steam Lines
Carbon Dioxide	Hydrogen	Sugar, Liquid
Castor Oils	Inert Gases	Vegetable Oils
Chlorinated Water	Jet Fuel	Water (Potable)
Coal Tar Naphtha	Kerosene	Water
Cutting Oils	Lacquer	Xylo
Diesel Fuel Oil	L P Gases	

BOSHART INDUSTRIES CATALOGUE/CD MAILING

You will be receiving the updated Boshart catalogue pages in the next few weeks. This year, for your convenience, the complete catalogue is being printed. When updating your catalogue, please do not discard your "Square D" mini catalogue in Section 6 or the Index Tabs.

The CD catalogues will also be available and are being sent out as requested.
